

Time	Topics	Speakers	Job Title	Companies
September 6, 2017, SZCEC				
13:30-14:00	Registration / Badge Collection			
Session 1 : Laser Technologies and Market Trends				
14:00-14:10	Welcome and Introduction			
14:10-14:35	Market			Yole Développement
14:35-15:00	Laser Market Technology Perspectives	Jose Pozo	Director of Technology	EPIC
15:00-15:25	Laser as A Tool – The Sharpest Tool in the Box	Royce Lee	Sales Director of Consumer Electronics Industry, Laser Technology,	Trumpf
15:25-16:10	Coffee & Networking Break			
16:10-16:35	Femtosecond Lasers for Advanced, Industrial Manufacturing	Dr. Klaus Hartinger	Senior Product Marketing Manager	MKS Instruments
16:35-17:00	Laser Welding Process with High Power Diode Laser	Zhu Baohua	President of Welding Light Source Research Institute	Han's Laser
17:00-17:25	How In-house Micro Optics Manufacturing Can Drive Laser Module Innovation	Mirjad Keka	Project Leader Business Development	FISBA
17:25-17:45	Thank you and Adjourn			
17:45-19:00	Networking Cocktail			
September 7, 2017 , SZCEC				
Session 2: Laser processing for semiconductors				
08:45-09:00	Welcome and Introduction			
09:00-09:25	Laser Technologies for Semiconductor Manufacturing	Amandine Pizzagalli	Market & Technology Analyst	Yole Développement
09:25-09:50	Lasers in Advanced IC Packaging	Dirk Müller	Director of Strategic Marketing	Coherent
09:50-10:15	Three-dimensional Nanolithography by Overcoming the Diffraction Limit	Zongsong Gan	Professor of Huazhong University	Wuhan National Laboratory for

			of Science and Technology	Optoelectronics , WNLO
10:15-11:00	Coffee & Networking Break			
11:00-11:40	Laser Technologies Drive New Industrial Applications	Dr.YuXing Zhao	Chariman	Delphi Laser
11:40-12:05	Implementing Laser Heating for Next Generation Packaging Mass Production and Beyond	Thomas Oppert	Vice President Global Sales & Marketing	Pac Tech
12:05-12:30	Review and Prospect On the Current Situation and Strategy of China 's Laser Industry Development	Dr. Zhang Qingmao	President	South China Normal University
12:30-13:30	Lunch and Networking			
Session 3: Emerging Applications				
13:30-13:55	IR laser: At the Heart of the Industry in Coming Years	Pierrick Boulay	Market & Technology Analyst	Yole Développement
13:55-14:20	Advanced Laser Processing for Emerging Displays	Rainer Paetzel	Director of Strategic Marketing	Coherent
14:20-14:45	3D Sensing Technology Trend and IoT Application Market Opportunities	Steven Hsieh	Senior Industry Analyst	ITRI
14:45-15:10	Market Opportunities and Trends Laser-Based Devices in Surveying and Construction Applications	Hans Van Der Tang	Director Sales & Marketing – APAC Region	ElectroniCast Consultants
15:10-16:00	Coffee & Networking Break			
Session 4: Finishing				
16:00-16:25	Hybrid Additive & Subtractive Processes for the Manufacture of Printed Electronics Devices	Dr. Phil Rumsby	CEO	M-SOLV
16:25-16:50	Ultrafast Laser for Advanced 3D Printing	Dr. Cao Xiang dong	President	Wuhan Hongtuo Newtech
16:50-17:15	Laser Precision Machining, an Outstanding Technique for Micro-Nano Manufacture (MNM)	Dr. You Wang	Distinguished Professor of National 1000- talent Program	Southwest Institute of Technical Physics
17:15-17:30	Thank you and Adjourn			

1) Early bird Rate [\(before August 15\): EUR 290/ \(2200 CNY\)](#)

2) Standard Rate [\(after August 15\): EUR 370/ \(2800 CNY\)](#)

Note: The ticket will include participation, forum documents, translation, speakers' PPT file, lunch, and tea break, cocktail etc.
